ONE out of every FOUR Automobiles

was in an Accident last year

IN ONE YEAR, 33,000 persons were killed and 962,000 injured in 835,000 AUTOMOBILE ACCIDENTS in the United States!

Even the most careful and skillful driver cannot be sure that he can always avoid an accident. Slippery roads sometimes make it impossible to meet an emergency, that, under better conditions, would be simple.

After an accident the person who is liable must pay for the damages—even though he used the utmost care and skill in trying to avoid it!

Any or all of his property may be taken to pay the damages—his car, his home, his farm, his stock or any property he may have, including his bank account. His salary or wages, too, may be taken.

Liability insurance protects the car owner against the possible loss of his property, his income, his time and his peace of mind. It enables him to drive with that comfortable feeling of perfect security—that his property and his income are protected!

6 Big Reasons WHY

You Should Buy
an ALLSTATE Policy

1 Allstate Offers every form of automobile insurance to fit your individual needs. Bodily Injury Liability in any amounts from limits of \$5,000 and \$10,000 to limits of \$100,000 and \$300,000. Property Damage Liability from \$5,000 up. We insure against Fire, Theft, Collision, Tornado and Glass Damage not only for total loss but for any damage to your car from these causes.

2 Security Our insurance policies are broad, liberal and easily understood. The policy holder is pro-

ected by ample capital and surplus, safely invested in sound securities under state supervision.

3 Service Our code is the same that has made Sears, Roebuck and Co. the World's Largest Store. To save you money. To give prompt service. To make prompt and fair settlement of all just claims.

4 Convenience We make it easy for you to become insured. You can sit at home, without the pressure of a salesman and decide for yourself what you need.

5 Lower Rates Our rates are lower—but not because the protection offered is less. We save you money because we deal direct with you, pay no sales commissions, operate with less expense and give YOU the savings in selling expense and operating costs.

6 Partial Payments No interest or service charge! Another exclusive ALLSTATE offer! Six months to pay! Pay 40% of your premium with order; 30% in three months; remaining 30% in six months.

A NATIONAL INSTITUTION—Our Insurance policies protect the holders anywhere within the Continental limits of the United States and Canada. Adjusters conveniently located throughout the country handle claims promptly, fairly and liberally.

You Too Can Have BEAUTIFUL ROSES

Roses are easy to grow if you start with healthy field grown stock. We do not handle pot grown plants. The varieties listed below are all choice kinds. All plants are 2 year old field grown. Shipped direct to you from a well known and dependable nursery. Not Prepaid.

EVERBLOOMING ROSES

RED RADIANCE: 71HC801½—Possesses all the good traits of its parent, Radiance, but is bright cerise (red.)
LA FRANCE: 71HC878½—Fragrant, large bright silvery pink flowers with pale lilac shading.
LADY HILLINGDON: 71HC842½—Yellow flowers of a particularly pleasing apricot shade.
SOUV. de CLAUDIUS PERNET: 71HC846½—Sunflower yellow. Flower is large and full; buds long and pointed.
BETTY UPRICHARD: 71HC887½—Petals a blend of carmine with coppery orange; inside a delicate salmon.
LOS ANGELES: 71HC940½—A flame pink toned with coral and shaded with yellow at the base of petals.
MRS. CHARLES BELL: 71HC889½—Similar in habit to Radiance with splendid buds of a lovely shell pink with salmon shading, sweetly scented.
SUNBURST: 71HC841½—Double flowers of deep yellow. Requires protection in cold sections.
FRANCIS SCOTT KEY: 71HC808½—Fine growth of great hardiness; double crimson flowers. Exceptional quality.

GRUSS AN TEPLITZ: 71HC800½—Bright rich scarlet color. One of the best deep red roses for continuous bloom. Very fragrant. Quite hardy.

RADIANCE: 71HC875½—The favorite rose of all America. Its brilliant rose-pink buds open into well formed flowers with lighter tints on the reverse of the petals.

KILLARNEY BRILLIANT: 71HC898½—Rose-pink, more colorful than the Killarney. Long slender buds make it an exquisite rose for cutting.

JONKHEER J. L. MOCK: 71HC881½—Clear imperial pink, reverse of petals rosy-silvery white. Awarded two gold medals, one silver medal and five first prizes in Europe.

PINK MAMAN COCHET: 71HC876½—Best pink tea rose for outdoor blooming. Very fragrant. Strong grower.

KAISERIN AUGUSTA VICTORIA: 71HC916½—Delicate pure white. Excellent for cutting. Its buds are borne on long stiff stems. The large double flowers are glorious.

DICKINSON'S GRASS SEED

Buy Good Lawn Seed . . . It Pays!

Nothing improves the home surroundings more than a beautiful well kept lawn. You can have a beautiful lawn only by using good seed.

There are two types of grass seed mixtures. The one we recommend is a quality mixture, made up of only the better grasses which are generally slow in starting growth, but which make a beautiful, permanent lawn.

The other is a mixture of cheaper quick growing lower priced grasses, which start quicker, make a nice appearance, but usually die out in winter and often the more expensive in the long run. We do not recommend the cheaper grades, because we do not believe they give satisfaction. Postpaid when included in \$2.00 order or more. Shpg. wts.: 1 lb. pkg., 1 1/2 lbs.; 3 lb. bag, 3 1/2 lbs.; 5 lb. bag, 5 1/2 lbs.

Dickinson's Club Green Mixture

An expert blend of the very finest re-cleaned imported and domestic varieties of true turf grasses. It makes a solid, velvety green lawn that will withstand tramping, maintain its fine texture and color through periods of drought and heat, and last indefinitely with a little care. Contains no timothy, is usually sells for 50c to 60c a pound elsewhere.

ASSORTED HEDGE PLANTS

Beautify Your Home With a Hedge

Cheaper and more attractive than fences. Sizes 12 to 18 inches have three canes, and 18 to 24 inches, three or more canes. Planting and pruning instructions with each shipment.

CALIFORNIA PRIVET: The popular hedge plant with glossy thick deep green leaves. Most generally planted ornamental hedge. Grows very rapidly and should be planted whenever a quick hedge is wanted, with little expense or trouble. Easily trimmed. All good, strong, quick growing plants. Plant 6 to 10 inches apart. Will not stand severe freezing. Plant Amoor River in cold sections.

SPIREA V. H. (Bridal Veil): Not only noted for its beauty as a shrub but also makes beautiful hedge. Plant 18 to 24 inches apart. Grows 6 to 8 feet high.

AMOR RIVER PRIVET: Glossy green foliage holds its color almost throughout the year. Forms a dense handsome hedge and stands shearing to any extent. Very hardy and if not trimmed grows 8 to 12 feet high, producing numerous white flowers, followed by steel blue berries. Valuable for hedges in the eastern and northern states. Plant 6 to 10 inches apart.

JAPANESE BARBERRY: Grows 3 to 4 feet. The best small hedge; also used for edging walks, drives and for garden borders. Has small red berries in fall and winter.

THOUSANDS of GROWERS Use

Read What FARM EXPERT

Says:

With the last few years the marketing of small fruits and vegetables has taken on a new significance in our farm picture. Special sales of fresh produce to consumers in nearby cities, the widespread adoption of roadside markets, have tended to materially increase the farm income. Added to this is the convenience and economy of a constant source of fresh produce for the family table, with sufficient supplies left over to allow for plentiful canning and preserving for use during the winter months.

Small fruits are particularly important from an income standpoint, not only because of their ready salability but because the new plantings come into bearing so soon, thus bringing a quick return on the investment.

The success of any planting program begins with the selection of seeds and sets. Sears, Roebuck and Co. have always offered the best that the market could produce. Strong, healthy stock of an approved strain, selected with proper regard for soil and climatic conditions, is the first step in successful gardening. The World's Largest Store, can be depended on for the right kind of stock at prices that are astonishingly low.

Yours very truly,
Sears, Roebuck and Co.

LATHAM RASPBERRIES

STATE OF MINNESOTA
Department of Agriculture
Says of Latham: "Latham has taken its place among the commercial Raspberries as the leading variety. It is one of the real commercial raspberries for this section."

MICHIGAN STATE COLLEGE
Says: "Latham is very productive and is hardy in this state."

STATE OF MAINE
Department of Agriculture
Says: "Latham is proving very successful here. Withstands our severe winters and produces good yield of berries that ship well."

The above quotations are reproduced by permission and prove the hardiness and heavy yield of Latham in Northern states. Latham is the most profitable Red Raspberry on the market today. It always commands top prices and because of its productiveness and shipping qualities it has been a real money maker for the commercial planter.

Yields of as high as 5,000 quarts per acre are on record! You should plant a few rows at least. Our plants are free from the raspberry disease known as Mosaic.

Raspberries are set 5 feet apart each way. 1,742 plants required for one acre.

Other Leading Varieties

CUTHBERT: Large, rich crimson color berries of superior quality and flavor. Fine for canning. A favorite red raspberry. Moderately hardy and does well in a wide variety of soils.

ST. REGIS: A superb variety and now considered absolutely the finest everbearing red raspberry. Gives more uniform and satisfactory results year after year than any other red raspberry. Produces fruit from early Summer to Fall.

CUMBERLAND: Large jet black berries, firm and of excellent quality, sweet and mild, ripening in midseason. Produces the largest Blackcap crop. Shipped from nursery in Delaware. The NEW BLAKEMORE Strawberry

Originated by the
U. S. Department of Agriculture

This new outstanding June bearer originated at the U. S. Plant Field Station at Glenn Dale, Md. Tests show that it will do well wherever Klondyke, Missionary and Premier have been grown. Selected in 1929 as the superior of all then known commercial kinds.

Every grower should try this variety. Order today!

Everbearing Strawberries

Everbearing Strawberries bring in money after the regular June crops are done. They produce fruit through the summer and fall months, and being out of season they naturally bring higher prices.

MASTODON: Now the most extensively planted Everbearing variety. Fruit is extremely large. Produces fruit throughout the summer and fall months.

PROGRESSIVE: Of vigorous habit; hardy and productive. Berries deep crimson color, fine quality, uniform in size. Delightfully flavored.

June Bearing Varieties

WM. BELT: Vigorous grower; invariably yields heavily. Large size berries.

JOE (Joe Johnson, Big Joe): A midseason to late variety. Good size, firmness and yield. Superior to many in flavor and color.

SENATOR DUNLAP: The old reliable widely planted variety. Deep glossy red, juicy and very good quality.

PREMIER (Howard No. 17): An extra fine early bearing variety. Preferred by many commercial growers. Produces good size, fine quality berries.

GANDY: Introduced by our nurseryman 30 years ago. Still a commercial favorite.

LUPTON: Large, bluntly conical, bright flame color, glossy. Splendid for market.

Two-Year Old Grape Vines

The demand for Grapes has increased tremendously in recent years. Because of that, they have become a good commercial proposition. They are easy to grow and frequently land that cannot be used for other crops can be set to grapes. Grapes can be planted on hillsides, along boundary lines or on arbors and trellises.

All Vines are 2-Year, No. 1.

Popular Varieties

CONCORD (Black): Best known grape. Succeeds practically everywhere.

AGAWAM (Red): Berries are large, rich and sweet. Ripens after Concord.

NIAGARA (Green): The most widely planted green grape. It bears more heavily in some localities than Diamond.

CATAWBA: The standard red grape of Eastern America. Vines are vigorous, productive and hardy.

DELAWARE (Red): Best table grape and an old time favorite.

DIAMOND (Green): Hardiest, most productive and vigorous of the green grapes.

MOORE'S EARLY (Black): Best early; commercial grape. Ripens two weeks earlier than Concord.

CACO (Red): A cross between Catawba and Concord. Retains good qualities of both.

WORDEN (Black): Better quality and larger than Concord. Ripens a week or ten days earlier.

Plant PEACH TREES

For Quick Money Crop

Peach trees are set in orchards by themselves or used as fillers in an apple orchard. As fillers, they bring an early return and by the time the apples mature they have earned their keep and may then be cut out. Set them 18 feet apart. They mature quickly and you will be picking your own fruit before you realize it.

Peaches are a profitable commercial fruit. Always in demand at good prices.

Early Ripening

CARMEN (White Semi-Freestone): A great favorite. A good size peach, white with red blush. Bears abundantly, very hardy and vigorous. Ripens July.

HILEY (Freestone): An early peach, creamy white with deep red cheek. Flesh is white, very juicy and of fine quality.

EARLY ELBERTA (Freestone): Very large, high quality lemon yellow peach. Flesh is fine grained and sweet. Ripens a few days earlier than Elberta.

ROCHESTER (Freestone): Tree bears while quite young. Large size fruit of a beautiful orange yellow color, mottled with red. Yellow juicy flesh. Early.

Late Ripening

LATE CRAWFORD (Yellow Freestone): A high quality large yellow peach, scarcely equalled in richness of flavor and adaptability to a wide range of soils and climate.

Midsummer Ripening

ELBERTA (Freestone): The most widely grown commercial peach. Large, golden yellow. Shaded with deep red. Flesh is firm and of rich yellow color. Ripens about August 15.

BELLE OF GEORGIA (White Freestone): Handsome large, white blushed with red, excellent quality, hardy, best white peach. Good shipper. Ripens August 15.

J. H. HALE (Freestone): One of the most popular peaches. Very large in size, golden yellow. Skin overlaid with carmine. More highly colored than Elberta. Ripens about August 10 to 15.

State variety wanted. Not Prepaid. Shpg. wts.: 3 to 4-ft. trees, each, 2 lbs., 5 trees, 4 lbs.; 4 to 5-ft. trees, each, 2½ lbs., 5 trees, 6 lbs.

PEARS

At least one pear tree should be in every home garden. Grows in almost any soil, but does best in clay loam. Plant 20 feet apart.

BARTLETT: Large beautiful golden yellow. Flesh is white, juicy, sweet and delicious. Ripens September 1 to 15.

ANGOULEME (Duchess): Autumn. Extra large, green; but-tery, rich, juicy. Best when picked early and put away for ripening. Bears when very young.

SECKEL: A small high quality pear. Juicy, sweet and fine eating. (Frequently called the little sugar pear.) Ripens about October 10 to 25.

KIEFFER: Rich golden yellow, tinted red. Firm, crisp and juicy. Improves after picking. Ripens middle October.

CLAPP'S FAVORITE: Earlier ripening. Lemon yellow in color with brown dots. Ripens in early August.

APPLE TREES

The King of Fruits! When other crops fail the apple orchard can usually be depended upon for a cash return. Merely as a matter of insurance, you should set out an orchard. Fruit sells rapidly on the market or through your own roadside stand. An apple tree makes a fine backyard shade tree, too, and has the added value of providing fruit for home consumption. We recommend its use as such. For orchards, set 35 to 40 feet apart.

Early Apples

YELLOW TRANSPARENT: A fine early variety. Medium size yellow skin. White flesh, juicy, pleasant, spicy flavor.

EARLY HARVEST: Thin skin, waxen yellow. Slight blush on sunny side. Flesh white, tender, crisp and juicy.

MAIDEN BLUSH: An old favorite, waxy yellow, with crimson blush. Medium size white, crisp flesh, tender and juicy.

RED ASTRACHAN: One of the leading early varieties. Large, deep crimson.

Fall Apples

GRIMES GOLDEN: Medium size yellow delicious flavor and rich golden color. Flesh is very firm, crisp, tender and juicy.

WEALTHY: White fleshed, juicy, beautiful apples, medium size fruit, attractive deep red. Suitable for Northern planting.

Crab Apples

HYSLOP: Large brilliant colored, dark red color. Flesh yellow, subacid, astringent, good for cooking.

CHERRIES

The Fruit of Many Uses

Cherries for pies and cherries for the table. The sour varieties make delicious pies while the sweet sorts are best for table use. Both kinds may be canned and preserved for use in the off season.

One or two trees of each type, planted in the garden, should provide ample fruit for family use.

For orchard planting, sour varieties should be set 15 to 18 feet apart and the sweets set 18 to 20 feet apart. For best results plant sweet and sour sorts near each other. Full planting instructions with each shipment.

State variety wanted.

Sour Cherries

MAY DUKE: Large, red and juicy. Ripens in July.

MONTMORENCY: The most largely planted of the sour varieties. Fruit is a beautiful glowing red and does not crack nor rot even in very hot, rainy weather.

EARLY RICHMOND: A fine early sour cherry. Fruit is medium size, dark red, tender.

State variety wanted. Not Prepaid. Shpg. wts.: 3 to 4-ft. trees, each, 2 lbs., 5 trees, 4 lbs.; 4 to 5-ft. trees, each, 2½ lbs., 5 trees, 6 lbs.

PRICES REDUCED ON BERMUDA ONION PLANTS!

STRONG, HEALTHY AND STURDY PLANTS Last Year's Price 69c—NOW 48c (500 Plants)

This year we offer reduced prices. Our Plants as always, are the finest obtainable. Because our Plants are produced by the millions we are able to lower production costs without affecting the quality.

Buy Sears Quality Plants this year! Try a quarter or half acre. One quarter acre requires 10,000 plants, set 3 inches apart in 3-ft. rows.

NOTE

Onion Plants are tied in bundles of approximately 100 plants. Bundles may vary slightly, some containing a few less than 100 plants and some containing a few more.

Yellow Bermuda Onions

Sometimes called White Bermuda, although it is a light yellow or straw color. The Yellow Bermuda made Texas famous as an onion growing state. The popularity of Bermuda onions has spread all over the northern states in the last few years. They are easy to grow and are excellent either for green onions or for slicing or cooking. Bermuda onions are especially suitable for the home garden. The Yellow Bermuda keeps a little better in storage than the Crystal Wax, so be sure to plant a few rows of each kind. You will be pleasantly surprised with them if you have never tried to grow them. All our onions are shipped in specially prepared aerated parcel post containers, so that they will reach you in perfect condition.

Hides Alarm Clock Behind an Onion

"Your plants produce the most wonderful onions I ever saw. They are so large that I can hide my Big Ben Alarm Clock behind one onion. I ordered one crate and I wish I had ordered six times that."

(Signed) M. L. Weems
(Address on Request)

Crystal Wax Onions

Crystal Wax is a pure white Bermuda onion with a pleasing waxy appearance that makes it very popular in the retail markets and in the home. Usually brings 25c to 50c per crate more than the Yellow Bermuda, and in some sections it has almost displaced other types and varieties of onions.

The Crystal Wax is almost exactly the same as the Yellow Bermuda in quality, the color being the main difference. Has the same mild sweet flavor that is characteristic of the Bermuda.

We suggest that if you have never tried the Bermuda Onions, you order some of each for a trial to find out which you prefer.

SELECT QUALITY

**Field Grown—Well Hardened,
But Not Freeze-Proof**

Our tomato plants are grown outdoors, and while they are not freezeproof, they are well hardened and will give better results than greenhouse or cold frame plants. All tomato plants are shipped direct from grower in Valdosta, Georgia. They will be shipped as nearly as possible at any time you specify.

REDFIELD: One of the most satisfactory tomatoes you can grow. Has a very tough skin and can be hauled or shipped long distances without damage. Its color is a glossy crimson with a slight purple tinge. Fruit is uniform in size and of excellent quality. Bears fruit long and heavily.

EARLIANA: A first class tomato that is profitable for both the market gardener and the home gardener. Bright scarlet color.

MARGLOBE: A wilt resistant, main crop, mid-season variety. Besides being wilt resistant it is a fine red globe shaped tomato of great merit. Very productive.

STONE: A first class tomato for the main crop. Extra large and bright red. A standard tomato for those who grow for canning. Also a good slicing tomato, solid, smooth and round.

GREATER BALTIMORE: A mid-season variety of great merit. Very heavy due to the extreme firmness of the thick meat. Many claim this is the finest canning tomato in existence. Very dependable and will produce a crop under bad conditions where many might fail. State Variety Wanted. Please specify date you wish shipment made.

Frostproof Cabbage Plants

Earlier Crop— Greater Profits

Our Frostproof Cabbage Plants mean greater profits for you. By using these toughened plants you can count on fully matured heads two to three weeks before you would get them with tender hot house or cold frame plants. You can get your cabbage on the early market if you use our frostproof plants. Early crops bring higher prices!

Our plants are grown for us in the South during the winter in the open field. They're tough and will resist cold that would prove fatal to tender hothouse or cold frame plants. They will stand temperature of close to 20 degrees without injury, consequently they can be set much earlier than tender plants and naturally they will head up earlier and will be ready for the early market when top prices usually prevail.

IMPORTANT: To get the full benefit of their frostproof qualities, these plants must be set out at least a month earlier than ordinary plants. When weather is cold the tops do not grow, but the roots develop and are ready to boost the growth when spring comes.

Quality Plants

We ship only the finest quality young plants. Old plants do not mature and go to seed instead of forming good solid heads. Our grower has farms in different sections which enable him to ship young plants all during the season, which begins around April 15th.

Varieties, Early Flat Dutch, Early Jersey Wakefield, Copenhagen Market, Golden Acre and Premium Late Flat Dutch. State variety wanted. Shipped from VALDOSTA, GA., near Florida border.

WE PAY THE POSTAGE..ON ORDERS of \$2⁰⁰ OR MORE.....

UNLESS OTHERWISE STATED

We pay all postage if the total value of mailable merchandise you order at any one time is \$2 or more (without including items described as "Not Prepaid"). Build your order up to \$2 and forget postage.

If your order amounts to less than \$2.00 or when ordering mailable articles which the catalog states are "not prepaid," include additional money in your remittance to pay the postage, as charges for parcel post shipments must be paid in advance. We will return every penny you send over actual postage required.

We Say "Add for Postage" When—

With the descriptions of some articles usually sent with other goods by freight and which for that reason are not prepaid, we state an amount which you can send to cover postage, should you want the merchandise sent by mail. This is to save you the necessity of figuring postage. In all such cases, if the actual postage to your town is less, we will return the difference to you.

When Postpaid Goods Are Shipped by Freight

When items on which we prepay the postage are included in a freight shipment, we will make an allowance on your bill for a proportionate amount of the shipping charges.

How to Figure Parcel Post Charges

For example, if the total weight of the goods you are ordering is 5¹¹/₁₆ pounds, you will see by referring to the rate table below that the 6-pound rate will apply. If you live in the 3rd zone from our store, the postage on a 6-pound package is figured at the rate of 8 cents for the first pound and 2 cents for each of the 5 additional pounds, making the total postage exactly 18 cents. The map above will help you to tell what parcel post zone you are in measuring from our store.

Explosives, Inflammable Articles, Poisons and articles measuring more than 100 inches, length and girth combined, cannot be shipped by parcel post, according to the United States postoffice rulings. The postage on any parcel over 84 inches and weighing less than 10 pounds will be that chargeable for 10 pounds at the zone rate.

If Necessary to Return Goods, We Can Give You Better Service If You Follow These Simple Instructions

Please Give Reason

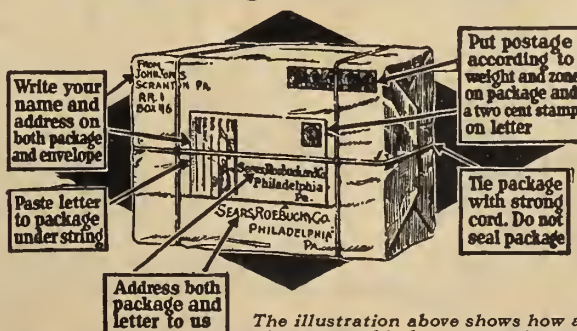

We are always anxious to improve our merchandise and our service. If you ever have occasion to return merchandise, we will appreciate your telling us frankly in just what way it did not please you.

Notice to Customers on Rural Routes

Should you wish to return goods, and you live on a rural route, you are entitled to deduct 2 cents from the postage on each package you mail if you live within the local, first, second or third zones, and 1 cent on all other zones. It is necessary, however, to write on your package "Mailed on Rural Route" in order to make this saving.

By Parcel Post

Paste an envelope containing your letter and the bills to the outside of the package, and put a 2-cent stamp on the envelope in addition to the postage on the package. Be sure to address both the package and your letter to us, also show your

name and address on them as shown in the illustration. Do not seal the package, but tie it with a strong cord or string. In this way we will receive your letter and package at the same time and can attend to your wishes promptly.

Do Not Enclose Your Letter INSIDE the Package, as This Is Contrary to Postal Laws.

By Freight or Express

Before returning goods shipped by freight or express, please write us, so we can tell you where we want goods shipped and whether we want the goods shipped by freight or express. When returning merchandise by freight or express, see that it is packed securely and addressed to us. Your full name and address should be placed on the inside or outside of the package. Place the word "FROM" in front of your name. Your agent will give you a receipt and this should be mailed to us at once with your letter explaining your reason for returning the merchandise. If your postoffice is different than the town from which the goods are returned, be sure to tell us.

Packages weighing up to 70 pounds can be carried by Parcel Post in all zones.

Special Delivery for Parcel Post

If you live within the carrier-delivery limit of a free delivery postoffice, such as towns have, or on a rural route within a mile from the postoffice, you can have your package delivered immediately by messenger on its arrival at your postoffice. If you live on a rural route more than a mile from the postoffice, a special delivery package will be brought out by the carrier on his first trip after receipt of the package at the postoffice and will be delivered at your dwelling or place of business, if it is not more than one-half mile from the route and the road is passable.

If you want this special delivery service on any order, include the following extra money in your remittance: 15 cents for a package up to 2 pounds; 25 cents for a package over 2 pounds, up to 10 pounds; or 35 cents for a package more than 10 pounds, and be sure to TELL US in your order that this extra money is for special delivery.

For any other information regarding rates or other parcel post matters ask your postmaster.

FREIGHT IS
RELIABLE

Save on Freight by Making Up an Order of 100 Pounds

FREIGHT IS
ECONOMICAL

Important to Know! All railroads charge as much for a freight shipment weighing less than 100 pounds as they do for one weighing 100 pounds.

How You Can Save! Whenever you are having goods shipped by freight, make up an order of 100 pounds, as the freight bill will be no more than for a shipment of less than 100 pounds.

Include Mailable Items! If you are not ordering enough freight items to make 100 pounds, you can still take advantage of this saving by adding items that would ordinarily be sent by mail. We will then send the entire order by freight so that you will have no postage costs to pay.

We Do Not Pay Transportation Charges on Freight or Express Shipments

How to Figure Freight Charges Please first consult tables on the opposite page for the classification of merchandise, because the tables there tell you what class rate of freight each kind of merchandise takes. When you have found in which class the merchandise you are ordering is in, you can then find the rate for that class in the table on this page. If your station is not named in this table, the rate will be the same or a few cents per hundred pounds more or less than the rate to the nearest city named. Most of our merchandise, of

An Added Saving! When items on which we would ordinarily pay postage are included in your freight shipment, we will make an allowance on your bill for a proportionate amount of the shipping charges. This reduces your shipping costs still more!

Be Sure to Check the Total Weights!

In having goods shipped by freight it will be to your advantage to add up carefully the shipping weights and if the shipment is less than 100 pounds add enough freight or mailable items to bring the total up to 100 pounds. *Ship by freight whenever possible as it is the most economical way for you to receive your merchandise.*

You will notice in the rate table on the opposite page there are four different rates quoted to each city. This is because the railroad companies base their rates on the kind of merchandise to be carried and the direction they carry it.

In order, therefore, to give you an idea as to the rates which any kind of merchandise will take to your nearest city, we tell you here the kind of merchandise which takes the different classes of rates.

NOTE: When articles are shipped K. D. (Knocked Down) it means they are taken apart and packed to secure lowest transportation rates.

EXPLANATION OF TERMS AND ABBREVIATIONS USED

How to Figure Express Charges—First estimate the weight of the goods you are ordering, then find the rate per 100 pounds to your nearest city in the Table of Rates on the opposite page, then consult the Scale of Express Charges below, following the line for the weight of

your goods to the column headed by your rate per 100 pounds, and the amount shown will be the express charge. If the exact rate per 100 pounds is not shown in any of the headings of the scale, take the next higher rate, and the express charge will be about the same to your town. We do not pay transportation charges on express shipments.

Express Rates from New York City to Porto Rico are quoted on a measurement basis. In order to estimate charges, it is necessary to know both the weight and size of the crate, or box, in which your merchandise is to be shipped. The rates shown at left are charges per cubic foot from New York to the points named, and to figure the cost of transportation from Philadelphia it is necessary to include trucking charges to New York at the rate of \$0.75 per hundred pounds. A charge will be made for crating and boxing merchandise, the nature of which requires additional packing to insure safe delivery by boat to destination. This charge will be billed to you after shipment of order. To enable you to figure the size of the shipment, the various measurements on such items as Phonographs, Radios, Stoves and Furniture are shown in the catalog. The crating of these articles will add about 10% to the actual measurement shown and must also be taken into consideration.

MINIMUM CHARGES

Not exceeding 4 cubic feet.....\$3.00
Not exceeding 6 cubic feet.....4.00
Not exceeding 8 cubic feet.....\$4.50
Over 8 cubic feet.....5.00

It's Easy to Order

When in need of anything—look first in our Big Catalog, where, in the comfort of your home, you can do all your shopping the convenient, easy Sears-Roebuck way.

Simply pick out the things you want, write them down on one of our order blanks, as shown on the sample order at the right, and enclose amount of money required. If you haven't one of our order blanks, any plain paper will do. You may use either pen or pencil and write in any language.

Necessary Information on Orders

Be sure to give correct catalog number, quantity desired, name of article and, wherever necessary, state size and color.

How to Send Money

The best ways to send money are by postoffice money order, express money order, bank draft or personal check. We do not recommend sending currency remittances, but, if absolutely necessary, be sure to have the letter registered. If you live on a rural route, you can give the carrier your order and money, and he will buy a money order for you.

Telephone or Telegraph Orders

If you are in a special hurry for your order, you may telephone or telegraph it to our nearest Mail Order Store, and the merchandise will be sent you C.O.D. Telegraph or Telephone to Special Order Desk.

Time Payment Orders

You can buy much of our merchandise on liberal time payments. Terms of payment are fully explained in descriptions of articles offered on time payments or on pages where this merchandise is listed. Read about our Home Furnishings Group Purchase Plan on page 595, and see page 799 for our Home Modernization Group Purchase Plan. If you wish to purchase Farm Equipment on easy terms, see page 501. Please use our Time Payment Order Blank when ordering merchandise sold on time payments. On all merchandise except that which can be bought on easy payments, our terms are cash in full with order.

WE PAY THE POSTAGE ON ORDERS OF \$2.00 OR MORE, UNLESS OTHERWISE STATED. (SEE PAGE 92.)

On mailable orders of less than \$2.00, or when ordering mailable articles which the catalog states are not prepaid, be sure to send additional money to pay the postage, as charges for parcel post shipments must be paid in advance. We will return every penny you send over actual postage required.

Freight and Express Shipments

It is not necessary to include money with your order for freight or express charges if there is an agent at your station, as you can pay him when shipment is received. If there is no agent, send additional money to prepay the freight or express charges. Charges are the same either way. We do not pay shipping charges on freight or express shipments. See pages 924 and 925.

Warehouse and Factory Shipments

We save you money and give you better service on some of our heavier, bulkier articles by shipping them direct from warehouses and factories close to your home. The descriptions give you these various points of shipment, but orders for all merchandise must be sent to our Boston store. We ship promptly from all our factories and warehouses.

If Necessary to Return Goods, We Can Give You Better Service If You Follow

Please Give Reason

We are always anxious to improve our merchandise and our service. If you ever have occasion to return merchandise, we will appreciate your telling us frankly in just what way it did not please you.

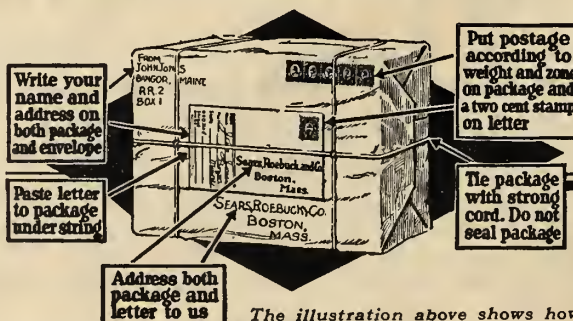

Notice to Customers on Rural Routes

Should you wish to return goods, and you live on a rural route, you are entitled to deduct 2 cents from the postage on each package you mail if you live within the local, first, second or third zones, and 1 cent on all other zones. It is necessary, however, to write on your package "Mailed on Rural Route" in order to make this saving.

By Parcel Post

Paste an envelope containing your letter and the bills to the outside of the package, and put a 2-cent stamp on the envelope in addition to the postage on the package. Be sure to address both the package and your letter to us, also show your

These Simple Instructions

name and address on them as shown in the illustration. Do not seal the package, but tie it with a strong cord or string. In this way we will receive your letter and package the same time and can attend to your wishes promptly.

Do Not Enclose Your Letter INSIDE the Package, as This Is Contrary to Postal Laws.

By Freight or Express

Before returning goods shipped by freight or express, please write us, so we can tell you where we want goods shipped and whether we want the goods shipped by freight or express. When returning merchandise by freight or express, see that it is packed securely and addressed to us. Your full name and address should be placed on the inside or outside of the package. Place the word "FROM" in front of your name. Your agent will give you a receipt and this should be mailed to us at once with your letter explaining your reason for returning the merchandise. If your postoffice is different than the town from which the goods are returned, be sure to tell us.

We pay all postage if the total value of mailable merchandise you order at any one time is \$2 or more (without including items "Not Prepaid"). Build your order up to \$2 and forget postage.

If your order amounts to less than \$2.00 or when ordering mailable articles which are "not prepaid," include additional money in your remittance to pay the postage, as charges for parcel post shipments must be paid in advance. We will return every penny you send over the actual postage required.

We Say "Add for Postage" When—

With the descriptions of many articles usually sent with other goods by freight and which for that reason are not prepaid, we state an amount which you can send to cover postage, should you want the merchandise sent by mail. This is to save you the necessity of figuring postage. In all such cases, if the actual postage to your town is less, we will return the difference to you.

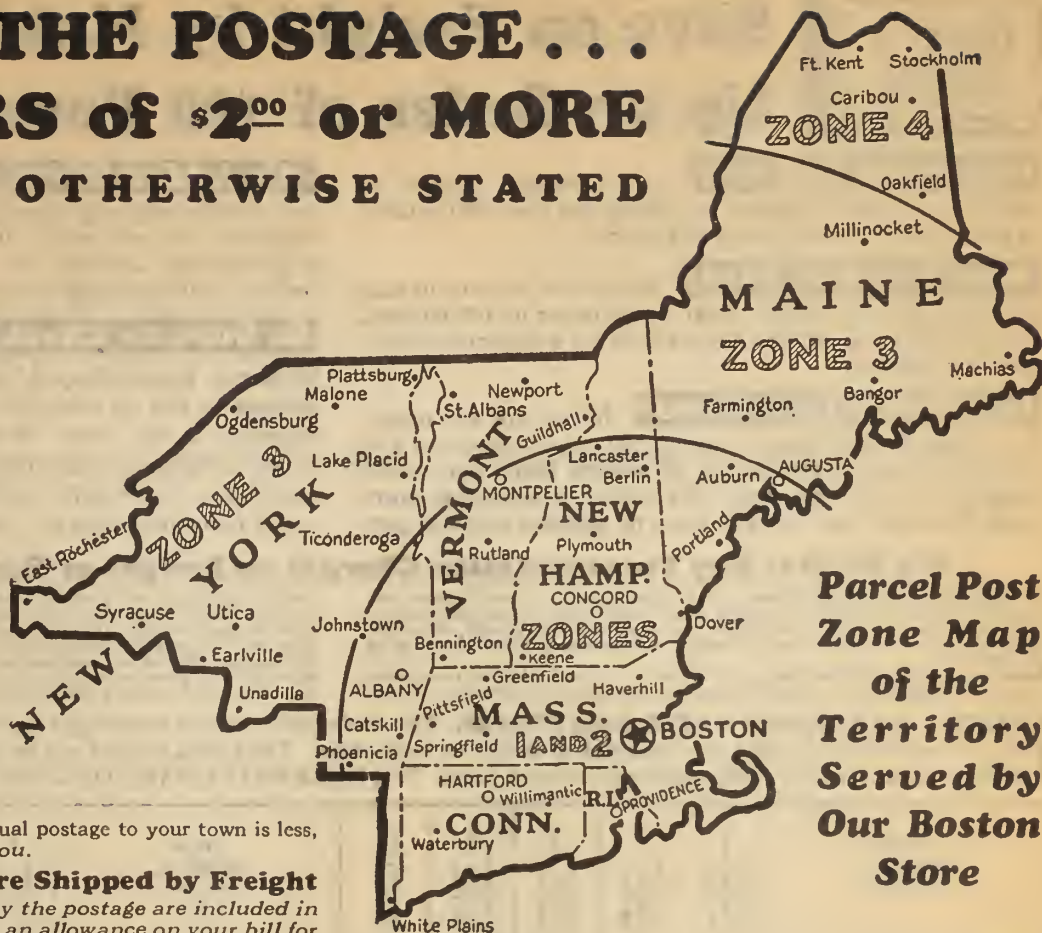

When Postpaid Goods Are Shipped by Freight

When items on which we prepay the postage are included in a freight shipment, we will make an allowance on your bill for a proportionate amount of the shipping charges.

How to Figure Parcel Post Charges

For example, if the total weight of the goods you are ordering is 5½ pounds, you will see by referring to the rate table below that the 6-pound rate will apply. If you live in the 3rd zone from our store, the postage on a 6-pound package is figured at the rate of 8 cents for the first pound and 2 cents for each of the 5 additional pounds, making the total postage exactly 18 cents. The map above will help you to tell what parcel post zone you are in measuring from our store.

Explosives, Inflammable Articles, Poisons and articles measuring more than 100 inches, length and girth combined, cannot be shipped by parcel post, according to the United States postoffice rulings. The postage on any parcel over 84 inches and weighing less than 10 pounds will be that chargeable for 10 pounds at the zone rate.

Packages weighing up to 70 pounds can be carried by Parcel Post in all zones.

Special Delivery for Parcel Post

If you live within the carrier-delivery limit of a free delivery postoffice, such as towns have, or on a rural route within a mile from the postoffice, you can have your package delivered immediately by messenger on its arrival at your postoffice. If you live on a rural route more than a mile from the postoffice, a special delivery package will be brought out by the carrier on his first trip after receipt of the package at the postoffice and will be delivered at your dwelling or place of business, if it is not more than one-half mile from the route and the road is passable.

If you want this special delivery service on any order, include the following extra money in your remittance: 15 cents for a package up to 2 pounds; 25 cents for a package over 2 pounds, up to 10 pounds; or 35 cents for a package more than 10 pounds, and be sure to TELL US in your order that this extra money is for special delivery.

For any other information regarding rates or other parcel post matters ask your postmaster.

If Necessary to Return Goods, We Can Give You Better Service If You Follow These Simple Instructions

Please Give Reason

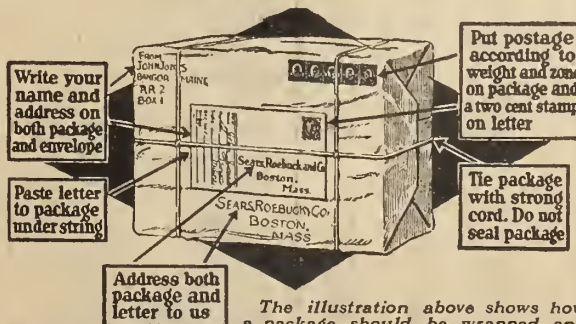

We are always anxious to improve our merchandise and our service. If you ever have occasion to return merchandise, we will appreciate your telling us frankly in just what way it did not please you.

Notice to Customers on Rural Routes

Should you wish to return goods, and you live on a rural route, you are entitled to deduct 2 cents from the postage on each package you mail if you live within the local, first, second or third zones, and 1 cent on all other zones. It is necessary, however, to write on your package "Mailed on Rural Route" in order to make this saving.

By Parcel Post

Paste an envelope containing your letter and the bills to the outside of the package, and put a 2-cent stamp on the envelope in addition to the postage on the package. Be sure to address both the package and your letter to us, also show your

The illustration above shows how a package should be wrapped and addressed when returning goods to us by parcel post.

name and address on them as shown in the illustration. Do not seal the package, but tie it with a strong cord or string. In this way we will receive your letter and package at the same time and can attend to your wishes promptly.

Do Not Enclose Your Letter INSIDE the Package, as This Is Contrary to Postal Laws.

By Freight or Express

Before returning goods shipped by freight or express, please write us, so we can tell you where we want goods shipped and whether we want the goods shipped by freight or express. When returning merchandise by freight or express, see that it is packed securely and addressed to us. Your full name and address should be placed on the inside or outside of the package. Place the word "FROM" in front of your name. Your agent will give you a receipt and this should be mailed to us at once with your letter explaining your reason for returning the merchandise. If your postoffice is different than the town from which the goods are returned, be sure to tell us.

Save on Freight by Making Up an Order of 100 Pounds

**FREIGHT IS
ECONOMICAL**

Important to Know! All railroads charge as much for a freight shipment weighing less than 100 pounds as they do for one weighing 100 pounds.

How You Can Save! Whenever you are having goods shipped by freight, make up an order of 100 pounds, as the freight bill will be no more than for a shipment of less than 100 pounds.

Include Mailable Items! If you are not ordering enough freight items to make 100 pounds, you can still take advantage of this saving by adding items that would ordinarily be sent by mail. We will then send the entire order by freight so you will have no postage costs to pay.

We Do Not Pay Transportation Charges on Freight or Express Shipments

If There Is No Freight Agent at your shipping point, you must include with your order sufficient money in addition to the price of the merchandise to prepay the freight charges. If there is an agent, you pay the freight charges when shipment reaches you. If you leave the method of shipment to us, we always choose the cheapest.

How to Figure Freight Charges. Please first consult tables on the opposite page for the classification of merchandise, because the tables there tell you what

An Added Saving! When items on which we would ordinarily pay postage are included in your freight shipment, we will make an allowance on your bill for a proportionate amount of the shipping charges. This reduces your shipping costs still more!

Be Sure to Check the Total Weights!

In having goods shipped by freight it will be to your advantage to add up carefully the shipping weights and if the shipment is less than 100 pounds add enough freight or mailable items to bring the total up to 100 pounds. *Do this and ship by freight whenever possible as it is the most economical way for you to receive your goods.*

class rate of freight each kind of merchandise takes. When you have found in which class the merchandise you are ordering is in, you can then find the rate for that class in the table on this page. If your station is not named in this table, the rate will be the same or a few cents per hundred pounds more or less than the rate to the nearest city named. Most of our merchandise, of course, is shipped from Boston, Mass. Some of the heaviest merchandise is shipped from warehouses to save freight for you. If you wish to obtain exact rates, you can ask your station agent.

FREIGHT and EXPRESS RATES from BOSTON. The table below shows the freight and express rates per 100 pounds on goods shipped from Boston to a number of towns in each state. The towns named can be used as a basis for figuring rates for other towns located in the same part of each state. **WE GUARANTEE SAFE DELIVERY OF ALL OUR SHIPMENTS.**

You will notice in the Freight Rate Tables on the opposite page there are four different rates quoted to each city, **first class, second class, third class and fourth class.** This is because the railroad companies base their rates on the kind of merchandise to be carried. In order, therefore, to give you an idea as to the rates which any kind of merchandise will take to your nearest city, we tell you here the kind of merchandise which takes the different classes of rates.

Explanation of Terms and Abbreviations Used:

HOW TO FIGURE EXPRESS CHARGES

Scale of Express Charges Based on the Rate per 100 Pounds

First estimate the weight of the goods you are ordering, then find the rate per 100 pounds to your nearest city in the Table of Rates on the opposite page, then consult the Scale of Express Charges at the right, following the line for the weight of your goods to the column headed by your express rate per 100 pounds, and the amount shown will be the express charge. If the exact rate per 100 pounds is not shown in any of the headings of the scale, take the next higher rate shown and the express charge will be about the same to your town.

We guarantee Safe Delivery of all our shipments. We will make good on any shipment that does not arrive in perfect condition.
